

PLYWOOD & ENGINEERED WOOD

NF ELIT LLC

Plywood, engineered wood, delivery, installation, repair and maintenance.

Dayton, Ohio

United States

01 / OUR MISSION

Connecting the wood trade.

We connect manufacturers, suppliers and sellers with buyers to make it easier to find the right wood products and work confidently from selection through delivery and care.

Making better use of wood

We aim to make better use of wood through thoughtful material selection, careful handling, and repair and maintenance that help extend service life.

Product families

01	BuildPly	Birch plywood for fabrication.
02	FormMaster	Film-faced panels for formwork.
03	HEXA	Patterned plywood for flooring.
04	LaserPro	Birch plywood for laser work.
05	LVL	Engineered veneer-based members.

02 / WHAT WE DO

From delivery to upkeep.

NF ELIT works with both materials and the work around them: last-mile delivery, installation, repair and maintenance.

01

Last-mile delivery

Delivery to the final destination, with access and handling requirements agreed for the location.

02

Installation

Installation when needed, coordinated around the material, site and scope of work.

03

Repair

Repair of wooden structures and components, from individual elements to broader repair work.

04

Maintenance

Maintenance of wooden structures and elements, with the work defined by their condition and use.

Wooden structures. Individual elements.

Discuss the location, materials and work required with NF ELIT. The service scope is defined for the project.
